THE CITY'S SCHOOLS. RESUME OF THE WORK DONE DURING THE PAST YEAR.

WIPERINENDENT'S MONTHLY REPORT.

Mr. William F. Fox, superintendent, submitted his regular monthly report, showing the condition of the public schools at the present time as follows: Total enrolment, 11.749; monthly enrolment, 9,455; daily attendence, 9,178; number of schools, 236; teachers—white 135, colored 78. The total enrolment of the session just closed exceeds the former session by 378 punits. The percentage of attendance (95 per cent.) is the same for both se sloos. The superintendent says that the attendance and work of the past session was seriously interfered with by sickness, in the fall the "grip," and in the spring the measles, whooging-cough and mumps. He says that the final examination in all the schools was carefully conducted, and there was remiser discontinuous on the part of all

The committee on commerce beg leave to submit a report of the result of the effort commenced June 23d to increase the membership of the Chamber. Circular letters were sent to about one thousand eight hundred eitizens and business men not members of the Chamber, with accompanying documents setting forth the objects and advantages of such an association, and the same papers were sent to members of the Chamber asking each of them in another circular to use their individual efforts to secure one or more members. These communications were accompanied by a form of application for membership printed upon a postal directed to the comfattee on commerce, and since then another card has been sent to the members, asking them to send in any names secured, so that they might all be prorosed at the meeting of the Board to be held to-day. To the present one hundred and two applications have been received, and a list of them is attached to this report as a part thereof.

The expense of this effort, as per statement herewith, is estimated at \$124.19. For the number of names secured this appears quit mind. Mr. W. W. MAP OF RICHMOND.

MAP OF RICHMOND.

Mr. Arthur B. Clarke, chairman of the Committee on Manufactures, laid before the board on behalf of his committee, a report in regard to a map of Richmond and its surroundings, as follows:

Gentlemen,—the undersigned members of committee on manufactures have to report in reference to the matter of procuring a correct map of the city of Richmond and the outlying territory within a radius of five miles from the Capitol, that they have had two conferences with Messes Redd & Son, who having already in their office recent surveys of the property, it is intended to embrace in said map, were considered the best parties to employ. These gentlemen have consented to prepare by Getober 1st, 1890, a map such as is desired for the sum of \$300, and in such a manner that it can be photo-lithographed upon a reduced scale, if desired, the original, it is intended, shall be hung upon the walls of the chamber, and will cover a space of about five fect square.

After full consideration of the matter, your committee are convinced that this is the best that could be done, and that a similar map prepared by any other parties who would cover to make surveys would cost at least \$500 or \$500. Under these circumstances the work has been given to Messes, Redd, which we trust will meet the approval of the beard.

work has been given to Messrs, itedd, which we trust will meet the approval of the beard. COMMERCIAL CLUB.

Under the head of reports of special committees, the secretary laid before the board a report from the committee appointed to consider the expediency of organizing a commercial club, which reads as follows:

The undersigned, members of a special committee appointed to consider and report upon the feasibility of organizing a commercial club or association, to foster and develop the interests and resources of Richmond, as suggested by Mr. T. A. Lamb at the annual meeting held the 12th instant, have to report as follows:

That it is feasible to organize a commercial club outside thus Chamber, but we recommend that our committee on business enterprises be increased to ten members, and that its name be changed to the improvement and development committee, and that it be charged with all the work contemplated in the plan of Mr. T. A. Lamb; that the Chamber, if possible, either by increasing membership dues, or solicting special contributions or otherwise, provide a fund for the work of this commettee.
